## Job description

GWE is seeking for an experienced Field Service Engineer for jobs around the world. This position assumes a key role by being the front line assisting our customers at every stage including start-up and commissioning of equipment, performing planned maintenance, monitoring performance, diagnosing system problems remotely, as well as responding to emergencies on a 24/7 basis. The desired person must be willing to travel for at least 50% of its time, be able to work under pressure and have a strong work ethic.

### Role Responsibilities:

- Responsible for meeting daily installation and service needs and driving customer satisfaction
- Installation and commissioning of waste, waste water and water projects
- Documents all inspections, maintenance, service work, and submits paperwork in a timely basis.
- Seeks to provide technical support to customers and other service professionals as required.
- May participate in site surveys and site meetings
- Maintains clear and concise business communication proficiency, both oral and written
- Travel around the world, overtime and work hours other than Monday-Friday will be asked.

Summary: This individual must be able to demonstrate strong mechanical, electrical knowledge and automation skills
